

THE LICENS UNIVERS

Safety for kids on the move

Oppenheim&Jansson

OUR PRODUCTS

For more than a decade Oppenheim & Jansson have developed, manufactured, and distributed safety products worldwide, both for our B2B, retail and promotional customers.

We manufacture: reflective products, first aid, emergency kits, automobile accessories and High-Vis garments.

We focus on the quality, but for the customers to find safety products attractive, it is immensely important to make the design functional, neat and fun.

RFX is the brand name for our reflective safety products and **RFX+Care** is our first aid brand. When your buying Oppenheim & Jansson products you are guaranteed, the best quality at the best prices and strongly defined working ethics.

OUR LICENSES

Because licensing is a marketing and brand extension tool that is widely used by everyone from major corporations to the smallest of small business what is more obvious than teaming up with the most well established license houses. Our partners today are Disney C, Warner Bros. / NLC and Egmont.

By combining "Safety products for Kids on the move" with the latest license figures you get high quality products that are both fun and functional as well as products that enhances a successful sale, as they are addressing both the children and adults.

We are constantly expanding our license portfolio by seeking for new innovative licenses fit for our safety products.

OUR FACTORIES

As a manufacturer of safety products testing and certification is important. Being the manufacture enables us to control every step of the process. From the early designing phase, through the product development, production to the finished product. With our own ISO certified manufacturing plants we stand strong in the market when it comes to our CSR, quality and prices.

Our set-up enables us to serve all our international customers and establish long-term working relationships.

REACH

We constantly test our materials in accordance with the European Chemicals Agency according to directive EC/1907/2006.

Certificates

Our products are certified by TÜV, SP, FDA medical ISO standardization. All our products comply with and even exceed current international CE standards and regulations.

All datasheets, test reports and certificates are available on request

OUR RESPONSIBILITY

At Oppenheim & Jansson we have strong CSR policies in all our working processes. We believe that we can be part of making a difference in the world of manufacturing and trading. By defining our policies further than just following Chinese laws we can guarantee you as our customer, that when you buy Oppenheim & Jansson products you too are playing a part of making a difference.

Oppenheim & Jansson's Code of Conduct are defined and implemented through BSCI and the international UN Global Compact's 10 principles. Furthermore all our key account customers run their own audits that have all been passed. RFX+Care have passed audits made by IKEA, Decathlon, Volvo, Toy'R Us.

"Every day we strive to be the factory that makes a difference, both in terms of work and business ethics, environmental policies and human rights" CEO Ulrich Oppenheim
