■ THE ECOLOGY AND SOCIAL RESPONSIBILITIES OF OUR BUSINESS

Environment

We are aware of how negative environmental impacts may result continuous economic growth. Our company therefore implements actions aimed at reducing or eliminating these impacts.

- We use heat produced via the production process to heat part of the plant.
- We collect rainwater in tanks (total volume of 100,000 litres) which serve as a fire protection facility and to cultivate green areas.
- We pass production waste to specialised recycling companies. All other waste is segregated in accordance with ecological principles.
- We pass used batteries, fluorescent lamps, and electronic scrap to specialised recycling companies.
- We save water and electricity by the use of flow batteries equipped with aerators.
- We use energy saving light sources.
- When buying new office equipment we pay special attention to their energy efficiency and versatility. We use printers capable of two-sided printing.

Social Responsibility

- We actively support the activities of foundations helping sick children. We also support foundations which help animals in distress (Centaurus, Boxers in Need, Boxers SOS).
