Sticky notes

6-11

Printed sticky notes are well-known and well-used products, both in offices and in homes, and over the past few years such notes have become necessary articles to create reminders to complete daily tasks. The wide range of possibilities for adaptation to the customer's need, for example by a unique shape or by using soft or hard covers, make printed sticky notes excellent advertising and promotional products.

Vivid Print is our new technology for process colour customization of sticky notes. This technology further enhances the quality of our sticky notes and sticky notes related products in the following respects:

1. Printing - sharper and more intense transfer of graphics colours from customer artwork,
2. Reproduction - full colour management during all production processes in order to reproduce even the smallest details,
3. Range of colours - application of not only four colours in one production run but also the possibility of adding further colours as PMS, fluorescent or metallic,
4. Multiple motifs - ability to print several graphic themes on different sheets, such as „A-B-A-B” or „A-B-C-D”, within a single pad,
5. Quality - minimizing the risk of ink-lifting and providing for stable and optimal peel-off force even in the imprinted adhesive strip area,
6. Production time - faster completion of orders,
7. Price - ability to combine orders by using a harmonized colour range resulting in lower costs for CMYK printing.

Sticky notes Basic

Sticky notes are the perfect tools every time you need to jot down important information and improve the organization of your work. To be used, for example, as a simple shopping list or for short notes with reminders of important events.

At your choice we offer a selection of sticky notes made with white, pastel or brilliant colour papers. A broad range of colours improve the visibility and a possibility of remembering the marketing message or branding. Therefore, your message will reach a much wider range of recipients. Keeping in mind the natural environment considerations we provide a wide range of products made from recycled paper, derived 100% from recycled resources. All raw materials used in our eco-friendly products are certified. A broad range of repositionable papers are available: white, pastel, brilliant, recycled white/coloured and kraft papers.
